

## CONCERT SCHEDULING POLICY

(rev.12.19)

Plugged In holds a benefit concert at the end of every session. The benefit concert acts as a recital where students perform the sets they've been learning throughout the session for an audience. In addition to the performance the benefit concert also gives students a unique opportunity to give back to the community. Each benefit concert raises funds and awareness for a charity chosen by the students. The concerts show students they can make positive change in the lives of others by doing something they love, like playing music.

Plugged In has changed the concert scheduling policy to ensure each concert is a great show, both for our students and the audience, as well as to accommodate our growing community of musicians.

Please take a moment to review the new policy below. And don't forget to mark your calendars now!
